

Alignment with the UN Sustainable Development Goals

How RYDN's mentorship work directly advances four UN SDGs adopted by 193 countries.

RYDN is a registered Canadian nonprofit that connects high school and CEGEP students with university-aged advisors who recently walked the same academic and career paths. All services are free, multilingual, and designed to reach students who are most underserved by traditional advising — newcomers, first-generation applicants, and low-income families.

UN SDG 4

Quality Education

Free 1-on-1 advising, workshops, and exam prep (MCAT, LSAT, DAT). Targets SDG 4.3 — equal access to tertiary education — and 4.4 — relevant skills for employment.

UN SDG 5

Gender Equality

Active recruitment and support of female advisors and students across STEM, medicine, and law. Targets SDG 5.5 — full participation of women in leadership.

UN SDG 10

Reduced Inequalities

Multilingual service in English, French, Spanish, Persian, and Hebrew. Free regardless of income. Targets SDG 10.2 — social, economic, and political inclusion of all — and 10.3 — equal opportunity.

UN SDG 17

Partnerships for the Goals

Direct collaboration with TDSB, YRDSB, universities, and community organizations to deliver mentorship at scale. Targets SDG 17.17 — effective public, civil society partnerships.
